PRIMUS
Shining Brighter, Together!

DECOBAR

CONSTRUCTION

High Quality Extruded Aluminum which is lighter and more weather resistant than steel – produced in 1", 2", and 3" wide housing channels up to 12' in a single section. Longer runs available with butt seams.

FINISH

Anodized Satin Aluminum, White and Black are standard finishes with the option for any custom powder coat finish giving superior finishes that are resistant to chipping, fading, and scratching.

DROP STYLES

Wide Assortment of custom shapes, sizes, finishes, and designs to fit and compliment any ambiance.

LIMITLESS CUSTOMIZATION

Where imagination and innovation converge. Whether its straight runs, curves, patterns, shapes, drop variations, or colors; Our simple platform for Decobar allows for easy customization.

EASY INSTALLATION

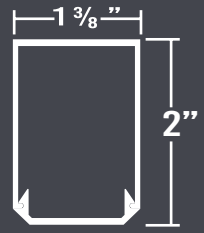

Either surface or suspended mount, Decobar is designed to have one-single feed point for a quick and smooth installation.

WET-RATED

Our 120V system has been tested and approved for indoor/outdoor wet locations. Conforms to IP65
