INSTALLATION INSTRUCTIONS FOR WET LOCATION

READ ALL INSTALLATION INSTRUCTIONS BEFORE INSTALLING

- Fixtures model no: EL3-FL - LED, EL3- RLR- LED, EL3- SQL- LED
EL2-FRL-LED, EL2- RLR- LED, EL2- SQL- LED
- Do not install on or near combustible materials
- Fixture suitable for ceiling or wall mounting. This product must be installed in accordance with the applicable electrical code and by a qualified electrician familiar with the construction and operation of the product and the hazards involved.

Installation of Fixture

- 1- Use only weatherproof approved components to install this fixture such: liquid tight conduit, connector, fittings etc. as required by the NEC code.
- 2- Remove one end cap, slide out and remove lens
- 3- Unsnap the inside cover
- 4- Mount fixture to a wall/ceiling with appropriate anchors (screws). Drill mounting holes as required and seal mounting holes with silicone after screws are in place.

*** To prevent accumulation of water field drill 1/8" weep holes at lowest point of channel ***

- 5- Make power and grounding connections using conductors rated for at least 105°C.
- 6- After wiring connections are done, snap in the aluminum cover into the channel and install appropriate lamp per fixture markings.
- 7- Snap on lens and slide under lip of end cap. Secure opposite end cap with the screws pre-attached to the fixture to close end cap and seal fixture.
